# WHY BAKKAH?

## Global Accreditation

---

Bakkah is where excellence meets education! We take pride in top-notch education which is backed by global accreditations and a strong commitment to industry best practices. Through tailored learning programs designed to meet professional needs, we help pave the way for professionals towards a remarkable business journey.

## Certified Instructors

---

To ensure superb and effective learning experiences for our valued clients, all our trainers are accredited instructors with proven expertise in their respective fields. We carefully select each trainer through a rigorous hiring process, which involves comprehensive interviews and thorough evaluations. We place paramount importance on their subject matter knowledge, teaching abilities, and communication skills.

# LEARNING SOLUTIONS

## **Accredited Programs**

---

Our globally accredited learning solutions provide a comprehensive and standardized approach to skill enhancement in many industries, for example, but not limited to, Project Management, Human Resources, Business Analysis, and IT Governance.

## **Customized Programs**

---

Tailored to the business's exact requirements, our customized learning solution is designed to fit your specific needs. We collaborate closely with you to develop a learning program that aligns perfectly with your goals, among which are Design Thinking, Decision Making, Problem Solving, Leadership, Communication and Presentation, and others.

# DELIVERY OPTIONS

We deliver our Learning programs in three flexible methods: **Live-Online and Self-study**. Our learners have the privilege of choosing how, when, and where they engage with educational content to ensure meeting diverse needs and preferences.

# FLEXIBILITY IN LEARNING

## LIVE ONLINE

01

Real-time virtual sessions with a certified instructor.

## SELF-STUDY

02

Independent access to learning resources at your pace.

## EXAM SIMULATOR

Our exam simulator offers realistic, timed practice with mock questions and instant feedback to help you confidently prepare for your certification exam.

# MATERIAL MODEL

Our material development process is guided by the widely respected ADDIE model. This proven framework, which stands for Analysis, Design, Development, Implementation, and Evaluation, serves as the cornerstone of our instructional design approach.

## ANALYSIS

Analyze your solution to understand the gaps you need to fill.

**A**

## DESIGN

Based on your analysis, make informed decisions to design the best possible learning experience.

**D**

## DEVELOPMENT

Bring your learning experience to life by building your end-product.

**D**

## IMPLEMENTATION

Distribute your learning end-product to your audience

**I**

## EVALUATION

Evaluate if your learning end product is effective. Make any necessary updates and cycle back to the analysis phase.

**E**
