DELIVERY METHOD

Classroom

Focus

The instructor is able to pay individual attention to participant needs and learners focus on what is being taught away from any distractions.

Interactivity

Encouraging learners from different departments to greater teamwork and more effective interaction with the instructor.

Custom-made

Tailored to meet employees' specific needs and focus on your business goals.

Convenience

Employees learn in a safe and quiet environment that enables healthy discussions and debates to learn from other viewpoints.

Live Online

Expert Support

Professional educators and eLearning customer support available to help with any inquiry, in addition to chat support to interact course instructors.

Progress Report

You will be able to track your employees' performance and learn about their experience through progress report that includes attendance, participation, and feedback.

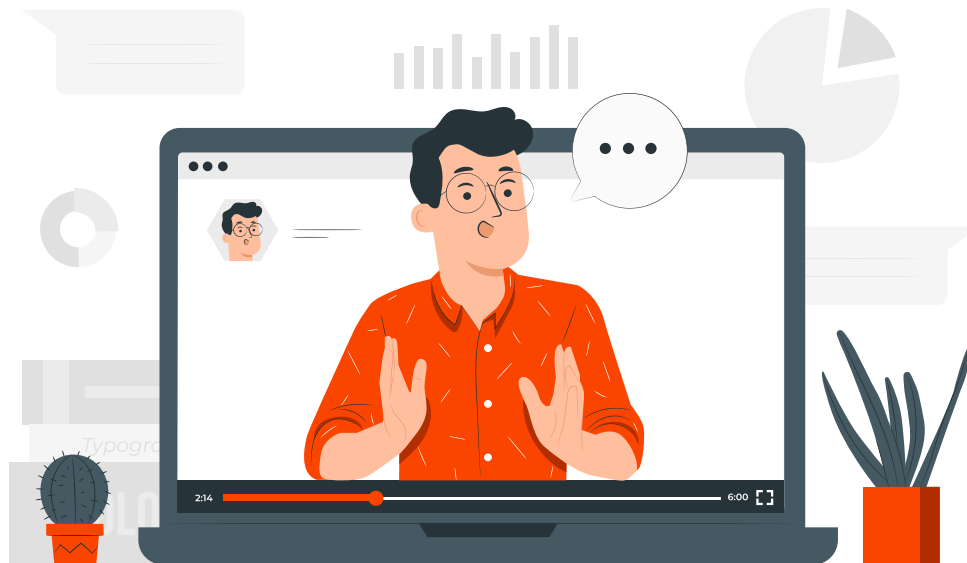

Flexibility

Live online helps learners fit their training around their lifestyle and work schedule.

Cost & Time Effectiveness

Reduced time and traveling costs to participants by providing access to the learning program to anyone with an Internet connection.

Self-Paced

Accessibility

Students can dive deep into the topic through their access to the learning materials, anytime and anywhere.

Self-paced

Learners are able to pace themselves with the studies and complete assessments according to their personal and work schedule.

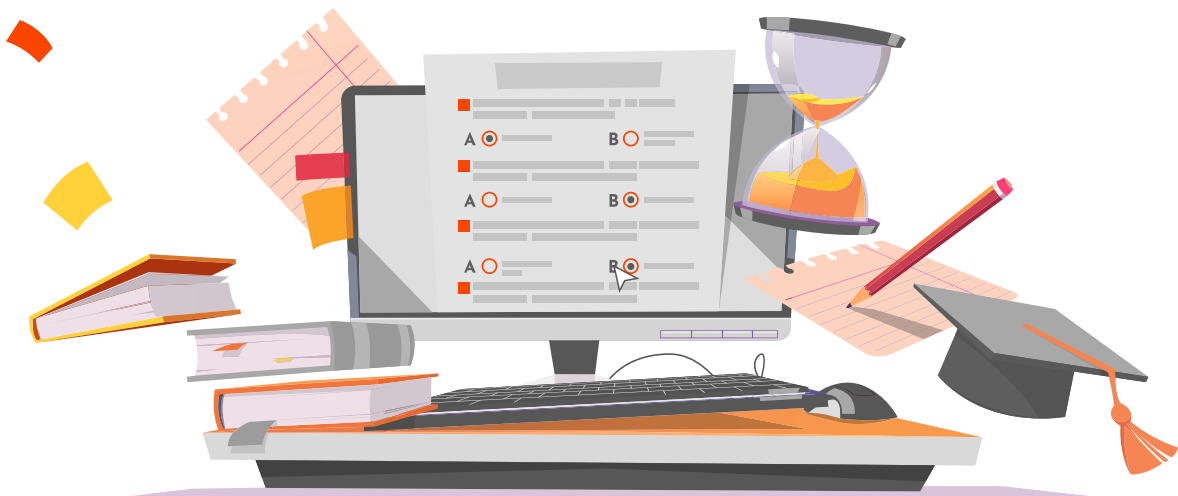

Practice

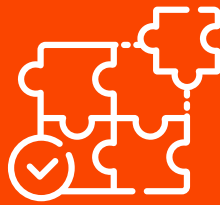

Along with the learning materials, you will have exercises, quizzes, practice tests, and case studies included.

Affordable Prices

Learners will be accessing the content designed by experts at the most affordable price.

CUSTOMIZED SOLUTIONS

Bakkah Competency Model

Competencies that focus on a specific job or function and involve the application of specialized knowledge and skills

Examples: project management, financial reporting

Technical Competencies

Competencies that are required to be an effective professional in a given function

Examples: energy level, sociability

Behavioral Competencies

Mental Competencies

Competencies that encompasses the knowledge, skills, and processes we associate with intellectual development

Examples: learning Index, verbal skills

Why Competency?

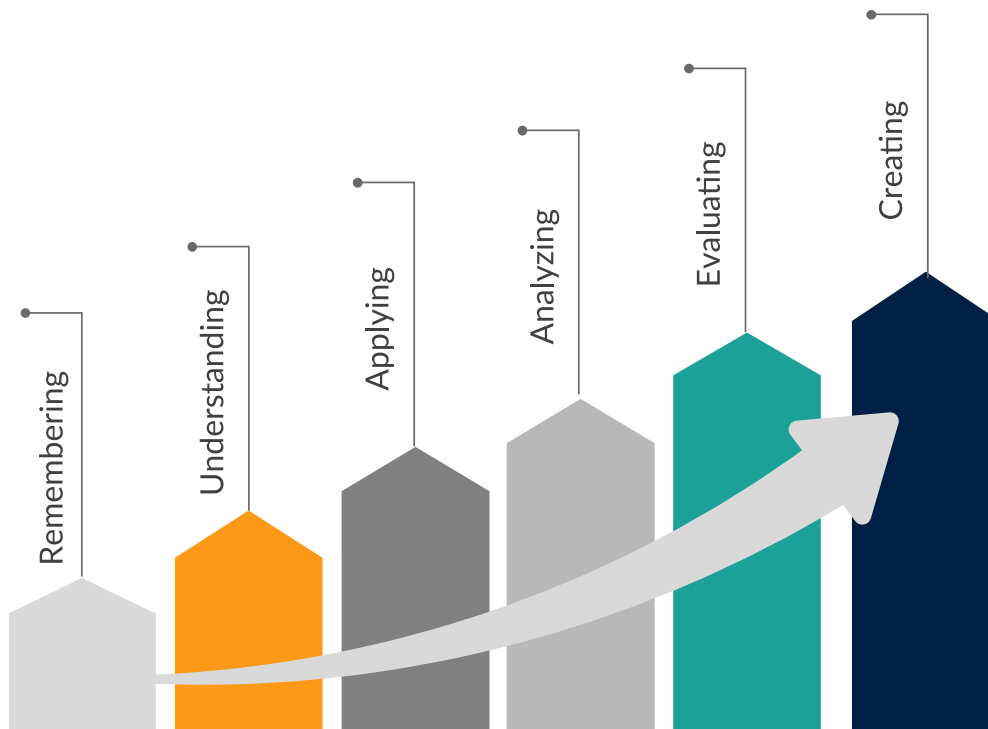

Competencies lie at the heart of strategic talent management by providing a common language for making fact-based talent decisions, prioritizing talent investments, etc

Proficiency Level

3 Proficiency Levels

Beginner		Intermediate		Advanced	
Understanding	Remembering	Analyzing	Applying	Creating	Evaluating

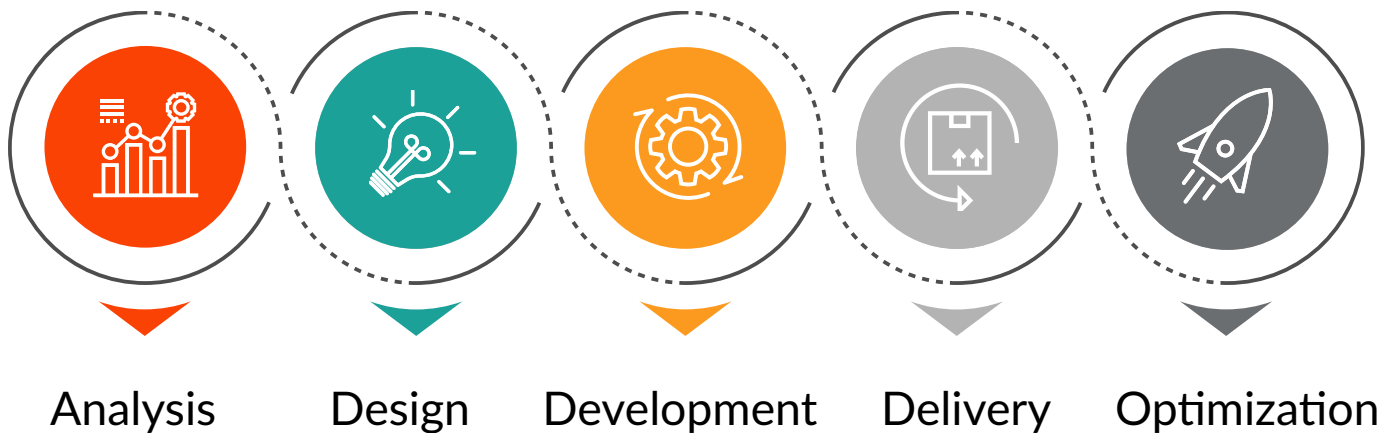

Bloom's Taxonomy

Bakkah Competency Model

AD3O Model is a framework designed by Bakkah in order to develop the learning material for all courses. The model is formed by studying the best instructional design models and developing it to suit Bakkah's goals.

Finally, we came up with AD3O model which means:

Bakkah Learning Model

Analyze

- Identify learning resources
- Identifying the target audience for learning
- Defining learning goals
- Defining target competencies

Design

- Learning structure design
- Designing learning modules
- Define learning methods
- Determine instructor requirements
- Development of competency metrics
- Determine the requirements for the learning environment

Develop

- Coach Handbook development
- Develop a learner guide
- Development of assessments (pre and post)
- Developing a learning implementation plan

Deliver

- Instructor preparation
- Preparing the learning environment
- Understand the interns
- Implementation of the learning session

Optimize

- Course Evaluation
- Improve the Learning course
