Our team of highly experienced, certified professionals help your reach the best decisions that ensure you realize optimum business profits by delivering projects on time, cost, and quality. We pride ourselves in having the skills and knowledge based on best industry practices that enable us to provide a myriad of solutions for business strategy to the most functional and operative areas.

Bakkah in Numbers

Course Objective

- Formal portfolio management is the most effective way to implement strategic initiatives because it bridges the gap between strategy and implementation. The Portfolio Management Professional (PfMP)® signifies your advanced competency in the coordinated management of one or more portfolios to achieve strategic objectives. The PfMP® certification recognizes advanced experience, skill and performance necessary to manage and align a portfolio of projects and programs to realize organizational strategy and objectives.
- PfMP® certification holders oversee the success of one or more portfolios, balance conflicting demands between programs and projects, and allocate resources based on organizational priorities and capacity. As portfolio management continues to grow and organizations adopt it to achieve strategic objectives, it becomes more important to have individuals competent in this area of practice. As employers demand portfolio managers who can support the strategic objectives of the organization, PfMP® certification holders will gain a distinct advantage in employment and promotional opportunities over their peers.
