Course Objective

■ Managing Successful Programs (MSP) is a globally recognized framework for managing a practice program, designed to align projects and programmes to the strategy of organizations and assist in achieving enterprise agility. The MSP certification guides program managers and develops their knowledge and skills. The fifth edition of the MSP improves flexibility and adaptability by applying an incremental approach to the program lifecycle.

Participants will be able to:

- Understand the basic concepts related to the program and MSP.
- Understand how MSP principles support their framework.
- Understand MSP topics and how they are applied.
- Understand MSP processes and how they are implemented.
